

# Carbon Reduction Plan

Supplier name: ...CoreCare Global Ltd t/a Vivid Care.....

Publication date: ...3<sup>rd</sup> October 2024.....

## Commitment to achieving Net Zero

**CoreCare Global Ltd t/a Vivid Care is committed to achieving Net Zero emissions by 2045.**

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2021</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
The Baseline Assessment includes Scope 1, 2 and 3 as required by the PPN 06/21 in relation to the Business Operations of CoreCare Global Limited.	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
Scope 1	57.32
Scope 2	16.14
Scope 3 (Included Sources)	197.43
<b>Total Emissions</b>	<b>270.89</b>

## Current Emissions Reporting

Reporting Year: 2023	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	46.09
Scope 2	0.00
Scope 3 (Included Sources)	261.21
<b>Total Emissions</b>	<b>307.31</b>

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that annual carbon emissions for all scopes will decrease to 155.5 tCO<sub>2</sub>e by 2030 and 27.09 tCO<sub>2</sub>e by 2045. This represents a reduction from baseline emissions of 90% by 2045: any residual emissions will be offset prior to 2045.

Progress against these targets can be seen in the graph below which plots the combined trajectory for total emission reductions across all three scopes

## Carbon Reduction Projects

The Client is working to develop specific carbon reduction measures to achieve its near term and long-term carbon reduction goals. These measures are expected to include:

- Focus on removing gas supply by 2030;
- Move all electricity contracts to renewable or green tariff electricity by 2030;
- Transitioning to electric vehicles for the company fleet by 2030;
- Engaging with suppliers who have their own net zero plan for 3rd party couriers by 2045;
- Use of business travel only when necessary (personal vehicles/flights/trains/taxis/hotels stay) by 2045; and
- Plans to reduce the need for commuting, more flexible/hybrid working for employee commuting by 2045

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>4</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>5</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>6</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### Signed on behalf of the Supplier:

Tristan Hulbert, Director
