

Carbon Reduction Plan

Published in accordance with Procurement Policy Note 006

Supplier name: CoreCare Global Ltd (trading as Vivid Care)

Company Registration Number: 08931470

DUNS Number: 219948079

Publication date: 16 July 2026

Commitment to Achieving Net Zero

CoreCare Global Ltd is committed to achieving Net Zero emissions for Scope 1, Scope 2 and relevant Scope 3 sources no later than 2045.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 1st January 2021 to 31st December 2021

The baseline assessment includes Scope 1, Scope 2 and the Scope 3 categories required by PPN 006 (categories 4, 5, 6, 7 and 9) in relation to the UK business operations of CoreCare Global Ltd. Emissions were assessed using the operational control approach in accordance with the GHG Protocol Corporate Accounting and Reporting Standard, applying UK Government GHG Conversion Factors for Company Reporting.

Corporate structure and reporting boundary

CoreCare Global Ltd was previously reported within a group-level carbon assessment for CoreCare Holdings Limited, alongside sister entities Innova Care Concepts Ltd and Dependall Ltd. During the 2024 to 2025 period the group was restructured: Dependall Ltd was sold in its entirety, and CoreCare Global Ltd and Innova Care Concepts Ltd became independent companies. As part of this restructuring, CoreCare Global Ltd closed its Linkside House premises in Harrogate and relocated its continuing operations to shared office accommodation at Roftha House, Rudgate, Thorp Arch, Wetherby.

This Carbon Reduction Plan reports CoreCare Global Ltd as a standalone entity. The baseline and current emissions figures below were calculated at entity level using the operational control approach, so the sale of Dependall Ltd and the separation of the group do not affect the reporting boundary of this Plan. The relocation of continuing operations to shared premises does not constitute a structural change requiring base year recalculation under the GHG Protocol. The 2021 baseline therefore remains valid and directly comparable. Energy consumption at the shared premises will be apportioned to CoreCare Global Ltd on a headcount basis, consistent with the recharge arrangement in place with the premises operator, in future reporting years.

Vivid Care, Roftha House, Rudgate, Thorp Arch, Wetherby, LS23 7AU

Vivid Care is a trading name of CoreCare Global Ltd, a company registered in England & Wales at the above Harrogate address. Registered Company Number: 08931470.

Baseline year emissions:

Emissions	Total (tCO ₂ e)
Scope 1	57.32
Scope 2	16.14
Scope 3 (included sources)	197.43
Total emissions	270.89

Current Emissions Reporting

Reporting Year: 1st January 2023 to 31st December 2023

Emissions	Total (tCO ₂ e)
Scope 1	46.09
Scope 2	0.00 (market-based)
Scope 3 (included sources)	261.21
Total emissions	307.31

All imported electricity is purchased through a REGO-certified renewable contract. In line with the GHG Protocol market-based reporting method, Scope 2 emissions for the reporting year are therefore zero. The location-based equivalent for the site was 11.84 tCO₂e.

Emissions reporting for the 2024 and 2025 periods was paused during the corporate restructuring described above. The 2023 reporting year is therefore the most recent complete dataset available at the date of publication. Data collection for the 2025 calendar year, the first full year of the company's current operating model, has been recommissioned and an updated version of this Plan will be published on completion.

Emissions Reduction Targets

To continue our progress towards Net Zero, CoreCare Global Ltd has adopted the following carbon reduction targets, aligned to Science Based Targets initiative (SBTi) methodology:

- Scope 1, Scope 2 and Scope 3: reduction of 50% against the 2021 baseline by 2030 (near-term target).
- Total emissions: reduction of at least 90% against the 2021 baseline by 2045, with any residual emissions offset (long-term target).

Vivid Care, Rofta House, Rudgate, Thorp Arch, Wetherby, LS23 7AU

Vivid Care is a trading name of CoreCare Global Ltd, a company registered in England & Wales at the above Harrogate address. Registered Company Number: 08931470.

We project that annual carbon emissions for all scopes will decrease to 135.40 tCO₂e by 2030 and 27.08 tCO₂e by 2045. Scope 2 emissions have already been reduced to zero on a market basis through renewable electricity procurement.

We recognise that Scope 3 emissions in the 2023 reporting year (261.21 tCO₂e) were above the 2021 baseline, driven principally by upstream transportation and distribution and by personal vehicle mileage for business use. The carbon reduction measures implemented since 2023, in particular the consolidation of the supply chain towards UK sourcing and the electrification of the vehicle fleet, are targeted directly at these sources and are expected to deliver a material reduction in the next reported year.

Carbon Reduction Projects

Completed and implemented measures:

- Migration of all imported electricity to a REGO-certified renewable contract, reducing market-based Scope 2 emissions to zero. Implemented in 2023 and maintained since.
- Transition of all company cars to full electric or hybrid vehicles, completed during the 2024 to 2025 period.
- Introduction of fully electric vans to the operational fleet.
- Consolidation of the supply chain to source more than 80% of goods from UK suppliers, directly reducing upstream transportation and distribution emissions, the company's largest single emission source in 2023.
- Disposal of the Linkside House premises and relocation to shared office accommodation, reducing the building energy footprint of the business.

Planned initiatives:

- Working with the premises operator to remove gas supply from occupied premises by 2030.
- Completion of the transition to a fully electric vehicle fleet by 2030.
- Further consolidation of UK and local sourcing, and movement of goods using more sustainable freight modes.
- Engagement with third-party couriers who hold their own net zero plans by 2045.
- Business travel undertaken only where necessary, supported by web conferencing technology.
- Reduced commuting impact through flexible and hybrid working, promotion of public transport and introduction of a cycle to work scheme.

Declaration and Sign-off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and the associated guidance and reporting standard for Carbon Reduction Plans.

T. 01423 799960 E. enquiries@vivid.care W. www.vivid.care

Vivid Care, Rofa House, Rudgate, Thorp Arch, Wetherby, LS23 7AU

Vivid Care is a trading name of CoreCare Global Ltd, a company registered in England & Wales at the above Harrogate address. Registered Company Number: 08931470.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard, and use the appropriate Government emission conversion factors for greenhouse gas company reporting.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
